MEDICARE PART B BILLING/CODING & NOVITAS UPDATE

PROGRAM DESCRIPTION

The revenue cycle or medical billing process is not undertaken by a single individual. Medical coding involves front office, medical assistants, and the medical biller and coder. It is important to understand every step of this revenue cycle process if you strive to have a successful medical practice. And it's important for all people involved to understand their role. In this workshop, we will cover the end-to-end process of medical billing as a whole, and not just the responsibilities of the biller and coder. This is an interactive workshop that will build your knowledge and skills regarding the billing and coding process. We will give helpful suggestions and discuss possible solutions to challenges you may be having at your clinic or billing office.

SPEAKERS

Kim Robinson

Provider Education Specialist
Novitas Solutions, Inc.
Provider Outreach and Education Department

Kim Robinson is a Provider Outreach Education (POE) Specialist for Novitas, the Medicare Administrative Contractor (MAC) for all services in Jurisdiction H (Arkansas, Colorado, Louisiana, Mississippi, New Mexico, Oklahoma and Texas). Kim specializes in Medicare Part A and Part B, Medicare Secondary Payer (MSP), liaison for Veterans Affairs (VA), Rural Health Centers (RHCs), Federally Qualified Health Centers (FQHCs), the Indian Health Services (IHS) and a Medicare Secondary Payer (MSP) Auditor.

Kim has 34 years of experience in Medicare claims, billing and operations. Prior to joining Novitas 5 years ago, she was with TrailBlazer Health Enterprises for 29 years and served in the education department as the Veterans Affairs (VA) liaison, during the time she has held various positions including Medicare Secondary Payer (MSP), Part A and Part B claims processing, written correspondence, telephone customer service, processed claims and handled correspondence for Durable Medical Equipment (DME).

The primary focus is to meet the educational needs of the physicians and suppliers; this is accomplished through conducting workshops, on-site visits and speaking to various groups.

Janet Hunter

Janet Hunter has had thirty-five years of Medicare experience. She has conducted both internal and external educational activities. She has developed curriculum and trained several Medicare carriers transitioning to the current claims processing system. She has conducted several large national Centers for Medicare and Medicaid Services (CMS) sponsored seminars and workshops. Janet has also shared her knowledge of the International Standardization for Organizations (ISO) system in numerous classes and performed several ISO audits. She has served as a supervisor in the Provider Outreach and Education areas responsible for scheduling and conducting provider workshops and onsite trainings. She has also served as supervisor of the Quality Assurance and Internal Training departments responsible for training call center representatives and conducting internal quality audits utilizing CMS criteria. She currently serves Jurisdiction H providers as an Education Specialist with Novitas Solutions.
